Patent Pending

New! Cosgrove® Angled Blades - Shown in Various configurations

Config. 1

Config. 2

Config. 3

Indication: Dr. Delos Cosgrove®, III has recently added two new angled, narrow, wire basket blades in addition to the original retractor blades for better surgical exposure. These angled blades are manufactured in a left and right design much like the Gillinov retractor blades for the Maze procedure. Unlike the Gillinov/Maze retractor blade, the Cosgrove® angled wire basket blades have a shallower depth for better mitral valve exposure (see side below).

To order call: 1-800-282-KAPP

Note: All of the Kapp/Cosgrove® Blades are interchangeable and can be used in any combination or on any reusable heart retractor.
