

Special Coned Heparin Needles

These coned Heparin Tips are used to flush saline (Heparin solution) through various sizes of veins and arteries. The cone design allows the vein/artery to secure itself at the proximal end for maximum infiltration. A shorter length can be manufactured at your request.

When ordering please specify short 4" or long 7".
Other sizes and styles are available for special orders.

Kapp Coned Heparin Needles

NOTE: For set specify - short 4" or long 7"
